A REFUTATION.

In the September 20th issue of the Edmonton Bulletin appears the following paragraph under the heading of Lacombe correspon-dence, taken from the Lacombe Advertiser, and was transcribed in the Bulletin office:

the Bulletin office:
"The Advortiser is, editorially, advocating the incorporation of the town. It says the people are cetting tired of dealing with public matters by circulating a subscription list. Lacombe is the largest town on the C. & E. line between Strathcona and Calgary and is apparently the most progressive as well."

sive as well."
Why such a paragraph should be manufactured and published by so reliable a paper as the Bulletin we fail to conceive, as it is entirely misleading. The Advertiser did not say one word about Lacombbeing the "largest town on the line, or the most progressice." The or the most progressive." The Bulletin man is surely better informed on the relative size and population of the hamlets on the C. & E., and the amount of business done by each I the inner ness done by each. If he is not, he had better consult the recent census returns for information regarding the population; and an interview with any reliable travelinterview with any reliable travel-ler for staple goods in the Edmon-ton district will enlighten him as to the amount of business done and progress made in Wetaakiwin, as compared with the other burgs. When this is dône, it will be dis-covered that Wetaskiwin is away in the lead.

A Pleasant Time

to be present will never forget the delightful evening spent as guests of Mesdames Huckell, Heric and Miquelon.

Wetaskiwin Cemetery.

A. S. Rosenroll has of Into bean busily engaged strevering the Wetaskiwin cemetery. This cemetery comprises soven acres of fine dry land; and is an ideal place for the purpose it is used. We have seen the plan, according to which the grounds are divided into five sub-divisions, each sub-division contains 18 blocks, each block contains 4 lots. Along the easterly and westerly limits there are for graves will in future be as follows: Double lots, 8th, 1f taken consecutively \$10;if picked \$15; single lots 4x5 in perpetuity \$5; single lots 4x5 in perpetuity \$5; single interments only \$3. There are some graves at entrance to the cemetery which are right on the infin avenue or drive, and which should be removed the fore the avenue is graded. Parties interested in these graves would do well to give this their immediate attention, and communicate with Mr. Carretthers, the care-taker.

WEAK, NERVOUS SCHOOL CHILDREN.

The severe and ever-increasing strain of competitive examinations, coming at a time when every boy and girl is undergoing trying physiological changes, does much toward making mental and physical wrecks of school children. A glance at the pale, weak and puny children which come from our public and high schools will make any thoughtful person consider seriously the advisability of sacrificing health and vigor for the trivial honor of standing high at examination time.

Hosts of boys and girls, young men and young women are suffering from ills and irregularities resulting from examination time. There is no treatment known to science that will so naturally and thoroughly restore strength and vitality to the nervous system and health to the whole body as Dr. Chase's Nerve Food. It makes parents happy by bringing back the color to the faces and the buoyancy and elasticity to the bodies of their pale, puny children. The severe and ever-increasing strain of competitive ex-

ESTABLISHED e e 1854. e e

The house now known as RYRIE BROS. is one of the oldest and best established jewelry houses in Canada.

Although established in 1854 it has only been under its present management for one-quarter of a century.

We have striven to conduct it upon such lines that "if it is from Ryrie Bros. you know it is good" has come to be an accepted axiom.

If you have any need in the jewelry line, however small, write us a letter, and try our Mail Order Depart-ment—it is positively good.
